EIR Ref: REVIEW EIR 2017/050

4th August 2017

Dear Mr. Kempe,

REQUEST FOR REVIEW OF DECISION UNDER ENVIRONMENTAL INFORMATION (SCOTLAND) REGULATIONS 2004 (the “Regulations”)

Loch Lomond & The Trossachs National Park Authority received your request for review on 7th July 2017 relating to your request for information about the Ledcharrie Hydro scheme.

Basis of Request for Review

The grounds for your request for a review of the original response are your disagreement with the application of exception R10(5)b which was used to withhold documents submitted by the developer to comply with conditions set out in the planning consent.

Assessment of Relevant Information

I have reviewed the original response, the exception applied, the reasons given for the application of the exception and the public interest in withholding the information. I have also reviewed the information which was withheld under the exception, and have consulted the Planning team in order to consider whether any documents previously withheld could now be released.

Decision

Full consideration of all relevant documents in the course of this review has resulted in the conclusion that some documents could be released without jeopardising any future enforcement case. These documents are being posted to you on a disc as there were too many documents to send by email.

The use of S10(5)(b) of the Regulations was correctly applied to all other information withheld, as this information could be required as evidence in a future enforcement case. This part of the original response has therefore been upheld.

Review Procedure

If you are not satisfied with this decision you are entitled to appeal to the Scottish Information Commissioner. Please note that in order for an appeal to take place you must lodge your appeal within six months of the date of receipt of this letter.
