

MR G MOORE

RECEIVED - 4 OCT 2012

2/10/12

Dear sir,

I am writing to object to the Ewan Docha hydro scheme (12/02435/FUL) on the grounds that only the most vital infrastructure developments should take place in National Scenic Areas. Of all the 5 current proposed hydro schemes on the Coulin Estate this is the worst from an ecological point of view as the river flows through remnants of the natural Caledonian pine forest.

Yours sincerely
